### Athletics, Tobacco and Alcohol

The thing which is doing the most damage to the liquor trade is schoolboy athletics. Schoolboys everywhere in America are being brought up to be athletes. Every school boy has training ideas hammered into him constantly. He is taught that he cannot be an athlete and drink or smoke, and so he leaves tobacco and alcohol alone."

These are the words of Thomas Sharkey, of New York, former heavyweight pugilist, who, like W. S. Landor, the poet, having warned "both hands at the fire of life," knows whereof he speaks.

There is not the slightest doubt that this testimonial of the retired prize fighter is true, and athletics are accomplishing an immense amount of good. And not only athletes pure and simple, but also such movements as boy scouts and boy cadets, despite the rather facile criticisms of amateur moralists.

"Athletes are casting me," continues Mr. Sharkey, "a lot of money every day," and then adds to his credit, "but I'm in it for just the same. I'm going to make this nation—the American—the healthiest on earth."

A very worthy ideal, indeed. An excellent view to take, although, perhaps not often taken by men of Mr. Sharkey's profession.

### Alfalfa to be Future Forage Crop

Prof. W. H. Fairfield says alfalfa is particularly fitted for cultivation on the prairies—on arid or semi-arid lands. It does not require an excessive amount of moisture to thrive, and it can withstand long seasons of drought. When moisture is applied—it resists rapid growth with apparently no setback due in the forest stand still. It is during July and August, the hottest months, that this plant makes its most rapid growth provided the moisture is not exhausted.

On dry farms the second and third cuttings are uncertain from the fact that the growth of the plant up to the first cutting uses up the moisture to a large degree, and unless timely rains come, the soil is often too dry to produce a very heavy crop afterward. Notwithstanding this fact, there is every encouragement to believe that with proper care in starting alfalfa, it can be grown on dry lands and that more hay may be obtained from it than from any other forage crop, for each season finds more farmers growing it without aid of irrigation. Every farmer on non-irrigated land should try at least four acres.

Select land that is well drained, not necessarily land that is high and exposed, but must not be wet or soggy, and the ground water should never be closer to the surface than three to five feet at any time during the year. This is quite important, as alfalfa is not a plant that will tolerate "wet feet." It prefers a sandy soil with an open subsoil, though this is by no means essential to its success. River bottom land often offers ideal conditions for its growth.

The land should have been under cultivation a sufficient length of time to have killed out the wild grasses, for it has been found that if these wild grasses come up to any extent during the first or even the second season, in a field sown with alfalfa, they retard the growth of the alfalfa plants, which are easily injured in this way until they become well established. The ideal condition of soil would be to take ground on which potatoes or other hard crops have been grown, or summer-fallowed land, and prepare the seed bed by discing or harrowing, or both. If the land is in suitable condition, it is better not to plow in the spring. If such conditions are not obtainable, stubble land may be prepared by plowing and preparing a good seedbed.

## BY-LAW NO. 35

A BY-LAW OF THE TOWN OF

GLEICHEN in regard to the sum of

\$1000.00.

WHEREAS IT IS DECREED EX-

PEDIMENT BY THE COUNCIL OF THE

TOWN OF GLEICHEN, THAT

IT IS DESIRED TO AUTHORIZE

THE EXPENDITURE AND

EXTENSION OF THE WATER AND SEWER GE-

TERS FOR THE TOWN OF GLEICHEN,

AND, WHEREAS, IT IS deemed ad-

visable that the amount of the loan

should be spread over a period of

twenty years and that the interest

shall be 6% per centum per annum;

AND, WHEREAS, IT IS deemed ad-

visable that the sum of \$1000.00

be loaned to the Town of Gleichen,

AND, WHEREAS, IT IS deemed ad-

visable that the loan be used for the

construction of the water and sewer

systems of the Town of Gleichen,

AND, WHEREAS, IT IS deemed ad-

visable that the loan be used for the

construction of the water and sewer

systems of the Town of Gleichen;

AND, WHEREAS, IT IS deemed ad-

visable that the loan be used for the

construction of the water and sewer

systems of the Town of Gleichen;

AND, WHEREAS, IT IS deemed ad-

visable that the loan be used for the

construction of the water and sewer

systems of the Town of Gleichen;

AND, WHEREAS, IT IS deemed ad-

visable that the loan be used for the

construction of the water and sewer

systems of the Town of Gleichen;

AND, WHEREAS, IT IS deemed ad-

visable that the loan be used for the

construction of the water and sewer

systems of the Town of Gleichen;

AND, WHEREAS, IT IS deemed ad-

visable that the loan be used for the

construction of the water and sewer

systems of the Town of Gleichen;

## PRIZE WINNING B. C. FRUIT LANDS

**O**WE have seen fruit and poultry tract (or more) in British Columbia and are independent for life. \$20 a month and \$10 a month part time. No cost and payments extended in our school. From \$500 to \$500 per acre realized by ranchers in this famous prize-winning district, the Main Kootenay Lake. Ideal climatic conditions, no rainy seasons as on the coast; no dry seasons or severe winters. The Kootenay Country is the "Land of Opportunity." See Government reports. The main lake never freezes over and the boats run all year round—see reports of other districts. I spent years in finding this ideal spot; I live there myself. I have my own fruit ranch—30 acres. "The Honeydew Place." Please for my model entries. Home calls will give you what you want to know about that great British Columbia Country, and there are scores of questions answered.

The new booklet, "Harris' New Method of Apple Culture," tells you how apples can be made to come into commercial bearing the second year. The old orchard has to wait five years. When a tree is made to bear 1,500 lbs. it can make \$3,000 per acre. It is free if you will not make more than two trees per acre. Those who may be interested in buying fruit lands, I have sold to over 400 people the last four months and would be pleased to send you copies of some of the nice little letters which were written to me which I received from those who have visited holdings which I picked out for them.

I refund your money if after seeing the tract I select for you you are not satisfied with it or with the rent I have to offer. If you cannot go on to your tract and wish to retain your present position for a few years and spend your vacation out there, I will agree to plant it and take care of it for you for five years at a time. You will receive a share of the profits from the crops. I allow you a discount of ten per cent. for cash and give you a good compensation in case you can secure buyers for them.

My monthly price list for wild and improved traps will interest the most careful buyer. Send for my famous "Kootenay Magazine," issued monthly, illustrating the Kootenay Country, its climate, soil, and general features. \$1.00 per year, or 25¢ for sample copy. A year's subscription, 20 names and addresses (written personally) of people interested in B. C. fruit lands.

Write me at once, giving name of a reliable reference, your nationality, amount you wish to invest, and I will forward booklet, map, etc. Address me personally at head office:

F. L. HARRIS

818-820 Somerset Block

Winnipeg, Man.

LONG DISTANCE PHONE, MAIN 3158.

Kootenay Lake, Alberta; Prince and Gold Hill, B. C.

Branches: Cor. Center and Ninth, Calgary; Lethbridge, Edmonton, Brandon, Saskatoon, etc.

## THE OPPORTUNITY OF A LIFE-TIME TO SHARE IN THE PROFITS OF A NEW INVENTION

We hereby offer for sale a limited amount of our CAPITAL STOCK at par, TEN DOLLARS PER SHARE, in order to facilitate the more rapid development of our business.

Our invention is the United Nations Carborator, giving the "MONOBRAKE" CARBORATOR, which is proven to be the most successful GENERAL PURPOSE KIRKSENSE CARBORATOR IN THE WORLD, in addition to being more ECONOMICAL, and EFFICIENT with gasoline and being entirely unaffected by PHOSPHATE OR ALTITUDE, which is a great advantage over other carburetors.

IMMENSE PROFITS have already been made by original investors over for small amounts, from individuals to large concerns, such as the BELL TELEPHONE, NATIONAL CASH REGISTER, WESTINGHOUSE AIR BRAKE, etc., and we are prepared to prove that the promising possibilities of our carburetor compare very favorably with any of the above.

In an investment of this nature, MERIT, COMMERCIAL DEVELOPMENT, MARGIN OF PROFIT AND EXCLUSIVE CONTROL OF INVENTION as well as responsibility of management should be investigated.

PRACTICAL DEMONSTRATION of the above advantages, as well as PATENTS and PHOTOGRAPHS, can be seen at 718 Fourth street east (Gostello Block, corner Eighth avenue and Fourth street east), Calgary, Alta.

INVESTIGATE AND ACT WITHOUT DELAY, as this company, though in its infancy, has a practically unlimited field, and prices will be advanced considerably after a limited amount of stock has been sold.

Any two of the undermentioned are hereby authorized jointly to sign temporary receipts for payments in full application for stock plus delivery of regular certificates.

H. M. WEINICK, 718 4th St. East, Calgary, Alta.  
W. BRUCE CRUMPTON, 718 4th St. East, Calgary, Alta.

## Get Your Canadian Home From the Canadian Pacific

### WESTERN CANADA'S DAY

This has been referred to as Canada's Century. In Western Canada we use no such general term—this is Western Canada's Day. We have had a century of progress. With the passing of each twenty-four hour period, new business blocks and homes are under construction, new lines of railway have pushed on a little further, and each day is brighter than the one preceding.

There is no safer or surer investment today than the farm lands in Manitoba, Saskatchewan and Alberta. If you wish your dollars to work every Western Canadian Day, call on or address

## Gleichen Public School Promotions

Below is a report of the promotions in the Gleichen Public Schools in the rooms provided by Miss Weston and Miss Gooderham. Mr. Arthur Whiteley, principal, has had the past week continuing the High School examinations at Langdon and has not told us this is the reason he has not sent us this report.

From Grade IV to V

Gertude Tregan,  
Edith Brouseau,  
Thomas Plante,  
Albertine  
Bauer Service.

From Grade III to IV

Dennis Ramkot,  
Lester Ramsay,  
Ferd Viger,  
Auguste Atrial.

From Grade II to III

Arthur Whiteley,  
William Leycock,  
Eleanor Walsh,  
Elwin Service,  
Violet Moore,  
Mabel Walsh,  
Rachel Koefield,  
Victoria Beupre,  
Doris Goss,  
Nora Coopage,  
Joseph Riley,  
Ferne McLeod,  
Leila Bachman.

Miss E. Wilson, teacher.

From Class IV to Grade II

Robert Weston,  
Willie Vidal,  
Frank Planté,  
Barbie Buckley,  
Doris Macmillan,  
Gladys Nield,  
Stanley Neal,  
Robert Higgins,  
Mike Bane,  
Eliza Wilson,  
Austin Wilson,  
Alberta Horn,  
Willie Taylor,  
Cora Allen.

From Class III to IV

Bertie James,  
Albertine  
Bauer Service,  
Edith Viger,  
Bella Wilson,  
—

From Class II to III

Jackie Marshall,  
Allen Wilson,  
Irvin Young,  
Margaret  
Kirkpatrick,  
Robert Taylor,  
Walt Gravell,  
Doris Service,  
Theodore Bartsch,  
Floyd Moore.

From Class I to II

Dorothy Weston,  
Geraldine Weston,  
Hickory Allen,  
Warner Bragg,  
Wendy Higgins,  
Walter McKee,  
Cecelia Beaucheneau.

Class I

Peter Vanhorn,  
Lorraine Anderson,  
Albertine  
Bauer Service,  
Thomas Naylor,  
John Plante,  
Doris Macmillan,  
Sara Allgood,  
Mildred Taylor,  
Norma Morris,  
Doris Nichols,  
Lorraine Moore,  
Claude Moore,  
Miss K. Gooderham, teacher.

The C.P.R. Dining Car Department had a rather novel idea for the commemoration of Dominion Day. On that day they presented to the passengers on their trains the dining car a very appropriate souvenir, consisting of a small leather booklet with real, whole maple leafs, containing a special map made of native maple sugar. Enclosed with the maple leaf was a miniature flag, the colors of the Canadian flag. Canada, also a strip on which was printed the words of our National Song "The Maple Leaf Forever."

So far it has been found impossible to prevent some of the passengers from taking the maple leafs even candle on that day, and we see no way to stop this anomaly. We are, however, thinking of putting the guillotine, or putting a bounty on the heads of defunct chickens.

There are two pretty women passengers who have taken steps in order to get a job of that kind. It is reported that they never take a drink out of their mouths, nor go to sleep on their seat.

The sum of existence can't safely amount to much more than your week's salary.

It is necessary that all children should be received not later than the 29th of July.

Concise is a suit of chain mail that keeps our skins from many a puncture and abrasion.

The first hall may be going out but the hall will be going in search of delinquent subscribers and other sinners. Forewarned is forearmed.

Why all this fuss about Taft and Morgan? The Morgan and Rockefeller crowd are the real presidents of the United States. Taft is merely a handshaking machine and probably a dangerous rival of the grampom.

—

From Grade IV to V

Gertude Tregan,  
Edith Brouseau,  
Thomas Plante,  
Albertine  
Bauer Service.

From Grade III to IV

Dennis Ramkot,  
Lester Ramsay,  
Ferd Viger,  
Auguste Atrial.

From Grade II to III

Arthur Whiteley,  
William Leycock,  
Eleanor Walsh,  
Elwin Service,  
Violet Moore,  
Mabel Walsh,  
Rachel Koefield,  
Victoria Beupre,  
Doris Goss,  
Nora Coopage,  
Joseph Riley,  
Ferne McLeod,  
Leila Bachman.

Miss E. Wilson, teacher.
